JET PADILLA

Junior Software Developer

Bulacan, PH | 09155480755 | jetpadilla07@gmail.com | linkedin.com/in/jet-padilla-b19b68327 | nahiwagaan.github.io

PROFESSIONAL SUMMARY

Fresh Computer Science graduate targeting a Junior Software Developer role. Experienced in full-stack web development, mobile app development, and UI/UX design. Proficient in React, JavaScript, Python, REST APIs, and AI-assisted development tools. Proven ability to lead teams, ship production-ready applications, and integrate intelligent automation into workflows.

EDUCATION

B.S. Computer Science — College of Mary Immaculate, Bulacan Graduated March 2026

WORK EXPERIENCE

Web Developer / Head of Marketing (OJT) Bulacan, PH | Apr 2025 – Jun 2025

- Built a dual-portal front-end for the EASTS Enrollment System (30+ users) with student registration, scheduling, and academic record tracking using Figma-based prototypes.
- Delivered responsive admin and student portals applying UX best practices, serving an 8-person cross-functional team.
- Managed social media scheduling, video editing, and branded content production to sustain consistent audience engagement.

THESIS PROJECT

Code Mania – Interactive Learning Platform (React, JavaScript, REST APIs) | Frontend Engineer & Project Lead

- Led frontend dev and UI/UX design for a gamified coding platform supporting Python, JavaScript, and C++ challenges.
- Managed a 5-person team via GitHub Issues; delivered fully responsive interfaces with progress tracking for admin and student roles.
- Iterated on UX based on real user feedback from classmate beta testers, improving challenge navigation and completion flow.

PROJECTS

- **ConeXus – Social Media Threads Clone:** SPA social platform with dynamic content and REST API integrations. Stack: HTML, CSS, Tailwind CSS, Node.js, JavaScript.
- **BayadTracker – Loan & Borrower Management App**: Offline-capable mobile app for managing loans, borrowers, and weekly installment collections. Stack: Expo, SQLite.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL
Frontend: HTML, CSS, Tailwind CSS, React, React Native
Backend & Frameworks: FastAPI, Expo, Node.js
Tools & Platforms: Git, Figma, Docker, AWS, SQLite, REST API Integration
AI Tools & Automation: Claude Code, Codex, Windsurf, OpenCode, Antigravity, Gemini, Framer
Competencies: UI/UX Design, Responsive Web Design, Agile Collaboration, Project Management
Languages Spoken: English, Filipino
